> PRIVA TOUCHPOINT ONE

An elegant control solution for a high level of personal comfort

There is an increasing demand for improved comfort in work and living spaces, without the loss of modern aesthetics and ease of use. We meet this demand with the new Priva Touchpoint One. An innovative control solution that allows users to control their own heating, cooling, ventilation, lighting and sun blinds through one integrated unit.

Comfort, design and ease of use come together in the Priva Touchpoint One, an elegantly designed control unit developed for offices, hotels, schools or any other buildings. This control solution lets users switch on their own heating or cooling, control sun blinds, and fine-tune lighting intensity

through a user-friendly interface. The optional CO₂ sensor, a unique feature, ensures plenty of fresh, healthy air and contributes to a clean and spacious look with fewer cables. It guarantees maximum productivity, comfort and cost efficiency.

Comfort in every space you can imagine

Maximum comfort in every space

With the Priva Touchpoint One, users can experience the comfort of their own home at their office. Hoteliers can pamper their guests with maximum comfort using a stylish control solution, allowing them to create their own ideal climate in their hotel room. The control unit is suitable for any space and available in black or white with customisable color accents.

The benefits

- > Integration of climate, lighting and sun blinds into one operation solution
- > Maximum cost efficiency thanks to optional features such as the CO₂ sensor and relative humidity measurements
- > Energy savings with the room temperature sensor
- > Increased awareness of energy use through green leaf graphics
- > User-friendly interface
