FS Performance
Essentials

Start registering your labor quickly and easily with no extra hardware

Optimizing efficiency and reducing labor costs are crucial for the success of your business. But how can you achieve these? It starts with keeping accurate records of your employees' activities and performance to give you insights into your labor and production figures. The solution? Priva FS Performance Essentials: Get started with labor registration quickly and easily – no extra hardware needed!

Benefits:

No hardware required
Log activities on a smartphone or tablet

Log activities on a smartphone or tablet
Easily register activities using individual smartphones by scanning barcodes, QR codes, NFC tags, or by manual entry. Or make use of centralized tablets for manual entry.

Dashboards and advanced software
Get instant insights into your business performance with user-friendly dashboards and advanced software for day-to-day operations such as Validation & Correction, Crop Management, Cost Profiles, and Reports.

Upgrades and updates
Benefit from Priva's developments or expand your possibilities by upgrading to FS Performance 4.0 including additional functionalities and integration of multiple sites.

Why
FS Performance Essentials?

- **Simplify activity logging:** No extra hardware needed
- **Increase productivity:** Insight into performance increases staff motivation
- **Reduce labor costs:** Get instant insights into your business performance and increase productivity

Various
logging options

+ Individual

On a smartphone by scanning NFC tags, QR codes, or entering activities manually on the screen. We recommend using NFC tags as they are easy to program and avoid manual input errors.

+ Multi-user

Employees can enter their activities under their own name on a central tablet or on one tablet per team.

Database & dashboards

With FS Performance Essentials you get access to handy dashboards, reports, validation and correction options, cost profiles, and a link to your Priva Office Direct software. You can also expand your package with additional modules.

What else do you get?

- Flexible system: expand your package easily with extra modules
- Seamless integration: standard data integration with Priva Office Direct
- Easy data sharing: share real-time data and management information with other people.

The new FS Performance Essentials solution is available in addition to the existing FS Performance solution.
